

FUJIFILM

Xerox Phaser® 6270 Photobook Printer

NEW

*Borderless prints that will change
your business for the better*

- Designed for on-site photo specialty product production
- Borderless prints without any post production trimming
- Automatic double-sided printing for easier operation

Photobooks, calendars and folded cards can be easily created on-site

Automatic double-sided printing enables easy creation of Photobooks, calendars and greeting cards.

Three paper trays make it easy to switch between sizes and weights to create a wide variety of products.

Borderless printing available

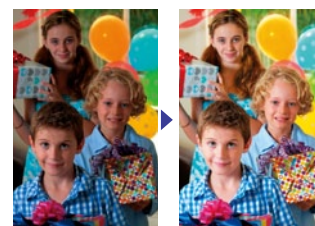

The Xerox Phaser® 6270 Photobook printer enables you to quickly and easily create borderless, double-sided pages for items such as photo books and folded cards, providing the kinds of products your customers demand.

New Phaser® 6270
The above are simulated images

Fujifilm's high quality images

Excellent color reproduction, the same as Frontier systems, can be performed. Automatic adjustment by our proprietary image processing technology Image Intelligence™ is also available*.

*Only with the software which supports Image Intelligence™

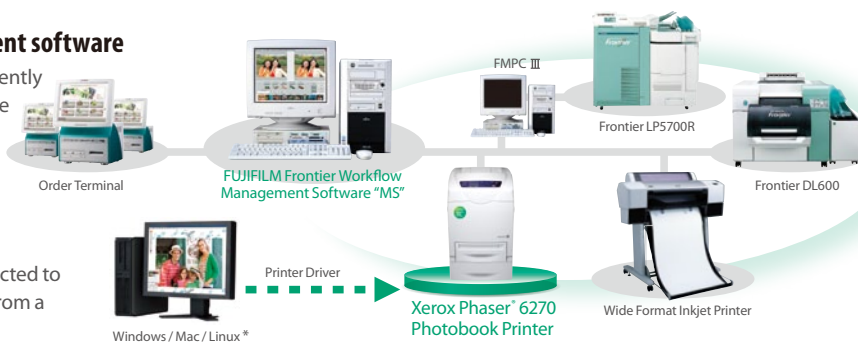

Catering to a wide range of system environments

Connection with Fujifilm's workflow management software

The Xerox Phaser® 6270 Photobook Printer can be efficiently operated & managed together with Frontier printers like the Frontier Dryminilab DL600 with FUJIFILM Frontier Workflow Management Software; "MS".

*MS optional software MPS64 is required.

Connection through the standard printer driver

The Xerox Phaser® 6270 Photobook Printer can be connected to systems that do not use MS, enabling network printing from a variety of applications.

Windows / Mac / Linux*

* Only Windows PCL driver supports the borderless printing.
