

FUJIFILM

GREENBOX

THE PERFECT START TO A WORLD OF PRINTING CREATIVITY

FUJIFILM

GREENBOX

print it large!

Buying a Large Format Printing system is a great opportunity to enter the large format market with a very fast Return on Investment. But you need to make sure that when the printer arrives that everything is ready to go so that you can start straight away without any headaches.

The GREENBOX offers a 'Total Solution' when you buy an Epson Stylus Pro printer from your Fujifilm distributor.

As a total solution, Fujifilm can offer you a full package including:

- Epson Stylus Pro Printer
- Epson Ultrachrome inks
- Fujifilm Professional roll and cut sheet media – a range of approximately 30 different types of media for printing
- Fujifilm Kiosk hardware and software
- Fujifilm ESP and ImageHunter software
- Wunderbar canvas framing system
- X-Rite colour management products
- Delivery and installation
- Training

The exact package will vary depending on your specific requirements. Please contact your local Fujifilm distributor for details.

The Greenbox offers a total solution for you.

Each bundle is geared for specific needs and examples are:

- Canvas printing solution with PC/Mac
- Canvas printing solution with kiosk
- Fine Art printing solution
- Minilab solution with Fujifilm Drylab and Large Format printer

Whether you are a retail shop, photo minilab outlet, professional photographer, art printer – we have exactly what you need.

Our extensive range of media includes photo papers, low cost matt bond papers, canvas, adhesive vinyls. Photo papers range from a lightweight 200gsm product to our top of the range Pearl 290gsm which meets the highest standards required for the professional market.

The canvas range includes natural and white canvases, matt or satin, single and double weave at wide level of price options.

The new Wunderbar system, unique to Fujifilm, offers the easiest and fastest way of mounting canvas onto a high quality wood frame which will always keep the canvas tightly stretched whatever the temperature or humidity and over a long period.
