

► **Professional results demand professional tools**

Today's printers are under constant pressure to improve **print quality**, increase **productivity** and boost **environmental performance**. Which is why Fujifilm develops intelligent and integrated solutions to meet these challenges across every segment of the Graphic Arts industry.

Fujifilm's **unparalleled experience** has resulted in a complete range of pressroom chemicals that help you take control of the entire printing process from plate to page; from pre-press to finishing. For professional results.

**Fujifilm Pressroom Solutions offer:**

- Increased profitability
- Optimised productivity
- Reduced environmental footprint

Discover the difference Fujifilm can make to your print process. Please contact your local sales person for more information.

► **Powerful Pressroom Solutions  
What's in our toolbox?**

For sheetfed, heatset and coldset printing processes

Please contact your local Fujifilm partner for further information.

**AUXILIARIES**

**Looking for the sharpest tools in the box?**  
Of course you are!

**Discover the difference Fujifilm can make to your print process.**

AUXILIARIES-SF-PRESSMAX\_0\_110101

► **Fujifilm's toolbox contains a full range of auxiliaries for a smooth-running press!**

Offset printing is a complex and critical process influenced by many parameters. Which is why Fujifilm has developed a full range of auxiliary products to save you time, reduce waste and keep you in control, every step of the way.

From highly effective deglazers for removing residue build up to anilox roller cleaners ensuring accurate coating volumes and sophisticated drying agents to improve the performance of sheetfed ink on non-absorbent surfaces. Whatever your requirements, Fujifilm has all the tools you will ever need to ensure a sharp, economical and ecological print. For a difference you can see.

**WATER CONTROL**  
**FOUNT CONTROL**  
 Easy to use test kit to measure the fountain dosage; not influenced by temperature, pollution or IPA content.  
**ECODRY**  
 Cobalt-free drying agent. Add to your fount for use with non-absorbent substrates or high ink load. For improved drying of ink.  
**XtraMax Water Mineral F12**  
 Optimum re-hardener for water treatment systems. Ensures stable water quality for consistent results and quality.  
**XtraMax System Cleaner F15**  
 Powerful water-based cleaning solution for dampening circulation systems. Removes ink, paper dust and bacteria.

**INK AUXILIARIES**  
**XtraMax Litho Control I48**  
 Ink additive to improve water/ink balance.  
**GRAFODRY**  
 Drying agent for ink to speed up oxidative drying.  
**COLORSTART LIQUID**  
 Start-up agent to refresh ink before restarting the print job.  
**ANTISKIN LIQUID**  
 Prevents drying of the ink whenever a print job is stopped for extended periods.

**PLATE CARE PRODUCTS**  
**XtraMax Plate Cleaner P80**  
 Mild yet highly effective plate cleaner for removing ink and activating the plate.  
**XtraMax Plate Gum P65**  
 Easy-to-use plate gum for superior protection.

**SPECIAL CLEANERS**  
**REVIVAL GEL**  
 Deglazer gel to remove calcium build up from blankets and rollers.  
**XtraMax Rejuvenator Wash R73**  
 Blanket rejuvenator for deep cleaning of the blankets with reconditioning effect.  
**XtraMax Ink Cleaner I49**  
 Roller paste to ensure deep cleaning of the ink rollers, especially in the case of sensitive colour changes.  
**XtraMax Cylinder Wash C21**  
 Cleaner for removing ink from the impression cylinder. Also applies a thin, protective film to prevent further build up.  
**XtraMax Hand Cleaner C31**  
 Highly effective hand wash for removing ink from your hands.  
**XtraMax Ink Cleaner I45**  
 Multipurpose cleaner. Also removes dried ink.

**COATING RELATED**  
**INK DUCT STARTER KIT**  
 All you need to get started with water-based ink duct coatings. Also includes VARNISH RETARDER.  
**ANILOX CLEANING GEL**  
 Cleaning gel for anilox rollers to remove residue from water-based coatings. Also removes dried coatings.  
**VARNISH REMOVER**  
 Mild cleaner for anilox rollers and coating blankets to remove water-based coating.

**WASH RELATED**  
**XtraMax Water Flow S85**  
 Water additive for automatic washing units. Prevents calcium deposits and bacterial growth. Also improves the wetting capacity.  
**XtraMax Damp Wash F10**  
 Fast evaporating, dampening roller cleaner. Removes ink residues and reconditions damp rollers to ensure optimum performance.
